It gives us pleasure to call attention to the card of the Bloomfield Nation al Bank in another column. A new department has been added to this flourishing institution for the sale of drafts, and letters of credit upon foreign countries This business has hitherts been transacted in Newark and New York Our citizens are to be congratulated upon the fact that they may buy drafts with greater case and just as cheaply in their own town | Choice Teas and Coffees. The bank continues to grow in prosperity, and just now is holding de posits of something over \$200,000. while the number of subscribers has risen to 365, a growth of 47 since Jan. 1st. There is still room for more depositers, whose Lusiness will be carefully transacted, with perfect security and with great convenience to themselves.

It is rumored that the Bloomfield Improvement Association will be asked to exert their influence toward securing the establishment of a telegraph office in this town The present telegraph office Fine Teas, Coffees and Spices, in the D. L. & W. R. R. depot is simply. a railway office, and the public interest is a secondary consideration in the conducting of it. Morehants and others de layed in New York over night and ilentring to inform their family or friends of the fact, often find it impossible to do so, owing to the fact that the office is closed at an early hour in the evening. In other cases of emergency when it has been found desirous to telegraph, it has not been possible. The Western Union Company have recently mitabilished an office in Montclair, independent of the ranks offices there, and it is believed that they could easily be induced to do the same thing in this town.

MOVING HOUSE AND HOME Curious Chases of Moving Where Not Even Carpets Are Taken Up.

As a general thing a man knows where to look for his house when he goes home from work. It often happens that a man residing on his own property sells the lot at a good figure and moves the house to a less costly loca-tion farther on. These are the times

Preaching Against Fortune Tellers. The Rev. Father Wall, rector of St. Paul's cathedral, scored the people of his parish yesterday, particularly the mar ried women, on the practice of patroniz ing fortune tellers and wizards who read the past, present and future.

When a person visits a fortune telle if he can, while they sit in a comfortaout what God alone, and no one else knows. When you give to a fortune teller your presence, and make him or her believe that they have a foreknowledge of seeing the inside view of the future, you adore him and make him be lieve he has power not given to the devil. If you think he can peer into the future you make him the equal of God. Therefore you have strange gods before Hips, and violate the first commandment "We find youths, young girls, and especially married women, making a practice of this sin.
